

CORE COMPETENCIES

Core Statement:

Don't compromise, customize!! There is no pallet too big or too small, we build them all to your exact specifications in the USA. Our pallets are manufactured from recycled plastic, setting a standard of innovation and environmental stewardship. We build pallets for numerous applications in many industries including: healthcare, chemical, steel, retail, bakery, oil and gas, flooring, packaging, and several government agencies. Our website enables you to build your pallet and get an INSTANT QUOTE. If you would rather discuss the design and engineering of your pallet, don't hesitate to call for personalized assistance.

Core Competencies:

- One of a few manufacturers that can custom build a pallet to your exact specifications.
- To ensure the pallet is suitable for your application, we will provide, at no-charge, a pallet for you to test.
- Our plastic pallets meet all international shipping requirements.
- Our plastic pallets resist contamination and can be sanitized.
- We provide expert pallet design and engineering resources.

DIFFERENTIATORS

- Avoid safety risks such as contamination, splinters or rusted nails.
- Our pallets are flame and fire retardant.
- To ensure longevity, replacement deck boards & stringers can be purchased.
- Our comprehensive website provides all the resources you need to quickly source your custom-built plastic pallets. Or if you prefer, call us for a one-on-one consultation.
